Good day Mr. Evans,

We would like a simple written report regarding the fire extinguishers that were brought in for refill/maintenance check.

Note we would love to know the following:

- 1) How many of the extinguishers were actually discharged.
- 2) How many were defective or were unable to be discharged even though it read as full as the retardant had expired.
- 3) What steps can be taken to eliminate re-occurrence of the extinguishers becoming expired.
- 4) What is the recommended maintenance cycle for the extinguisher to be checked to ensure they remain usable.

Best regards,
Lacian Mclean
