Hi All, please keep note that this has now gone quite nasty, Racial slurs, as seen by a post on a popular whatsapp forum. Nick says he is going to take a leather belt and slap across "The White boy Back", refuring to Thomas "Tommi" Gore. Please note that if it was in reverse all news would hear about this now. He has made references to this many times.

The live with 876 Streets also made very nasty references to the JMMC and how you all are thieves and liars. He has brought a real bad light on Jamaican motorsports.

I really hope we can sort this out before the events this weekend. To go into a motorsports event this weekend still not sorted will not be good.

Waiting to hear from you all,
Doug Gore
